The screenshot shows a Microsoft Teams meeting interface. The main content is a presentation slide titled 'Organ Transplantation' (implied from the context). The slide features a central human silhouette with callouts to various organs, each accompanied by a text box describing the organ and its transplant statistics. The text boxes are as follows:

- EYES / CORNEA**: Common transplant that restores vision with a 95% success rate.
- LUNGS**: Has an 80% success rate for those with fatal lung conditions.
- LIVER**: Over 16,000 people in the US are waiting for a liver transplant.
- KIDNEYS**: Over 90,000 people in the US are on the waiting list for kidneys.
- INTESTINES**: Over 20% of those who need a donation will die while waiting.
- VEINS**: Used to replace and repair veins damaged from disease.
- HEART VALVES**: Often used for infants whose heart valves are defective at birth.
- HEART**: 1 in 10 of those who need a new heart are under the age of 18.
- PANCREAS**: A new procedure transplants pancreatic cells to cure diabetes.
- SKIN**: One skin donor can improve the lives of over fifty people.
- BONE / MARROW**: 800,000 bone transplants are performed each year.
- TENDONS & LIGAMENTS**: Helps those who have lost muscle function due to injury or disease.

The Teams interface includes a 'Request control' button, a 'Leave' button, and a participant list at the bottom. A 'Screenshot saved' notification is visible in the bottom right corner, indicating the screenshot was added to OneDrive. The system tray at the bottom shows the time as 02:13 PM on 13-08-2021.
