

# BCAssistAPP

*An app developed by BCA students of Surana College is a handheld assistant to every computer science student!!*

Learning is a continuous process and the focus has now completely shifted to eLearning. Due to the availability of cost-friendly smart phones and with the various feature-oriented applications, students can learn at their pace and take their time at understanding things, as everything is just a click away.

In these changing times, students are more driven towards using a smart phone for every purpose. The world is at the fingertips and a student can get access to any information from anywhere. This reduces the chance of visiting a library and searching for the data. A mobile phone hence can be used for a number of such purposes. What makes the information easily available is mobile applications? Every mobile app has a unique feature which offers its own set of services.

**BCAssist** is one such educational app that is a one-stop solution for all Computer Science students. In this era where we are surrounded by technology all around us, it's high time the student life gets a touch of technology. BCAssist app enables a student to catch up with everything happening in the IT world right from study material, interview tips to University Notifications.

**BCAssist** is developed by BCA students **Mahendra T, Syed Afshaan** and **AnoopKiran R** under the guidance of **Vidya A, Asst. Professor, Dept. of Comp Sc.**

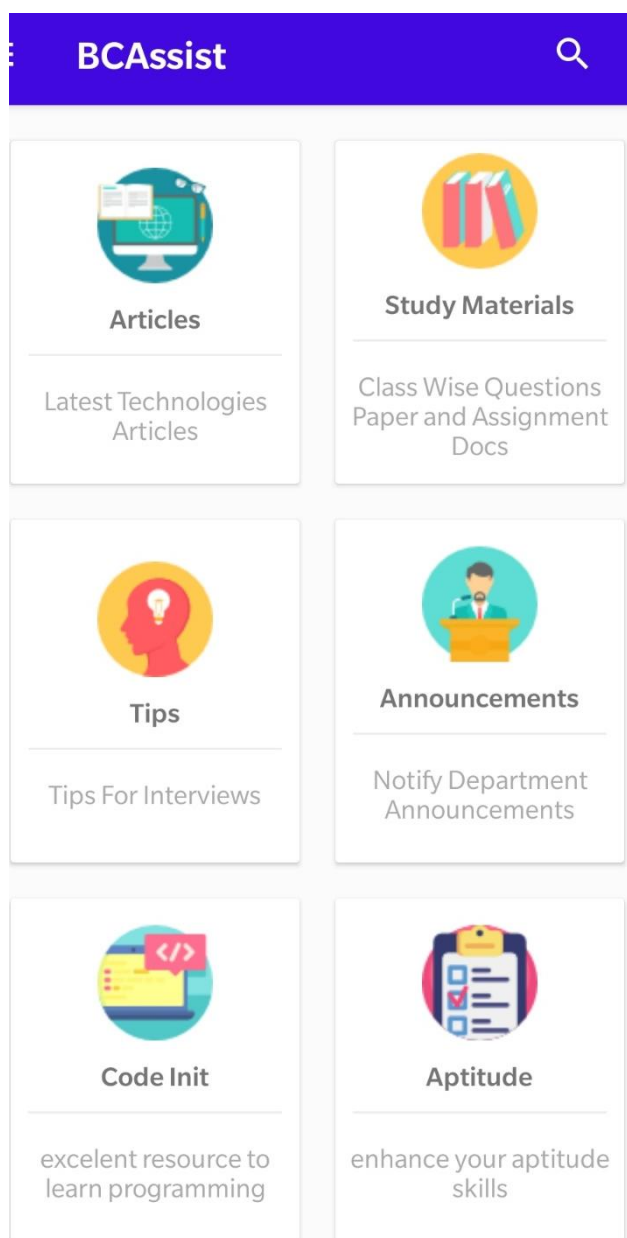

## **FEATURES OF BCASSIST**
