Annual Quality Assurance Report

**Criterion VI – GOVERNANCE, LEADERSHIP AND
MANAGEMENT**

6.2.1 Strategy Development and Deployment

Date: 16-01-2023

STRATEGIC PLAN AND DEPLOYMENT

The institutional strategic plan is designed and directed by the IQAC, and necessary action is taken to improve all the departments of the college. In this perspective, the institution has laid, emphasis on some of the important areas that encompass quality assurance. To mention, curriculum delivery, student competency enrichment, faculty development, **strengthening research areas**, collaborative agreements, extension and outreach services, environmental protection, optimal utilization of human and financial resources.

The activity that has been successfully implemented based on the strategic plan is strengthening research areas.

Following are the activities related to the research.

- committee constituted.
- Patents done by faculties.
- Ongoing students research paper/projects
- Ongoing faculty research paper/projects
- Research policy
- Research Equipment's
- Innovations
- Funding from outside agencies

Researchers can seek additional support to continue their study in the area interested by utilising office space, equipment, and internet. In colloquium, our researchers presented their findings of the study. These projects are meant to encourage young professors to seek external financing in the future. Faculty and students have consistently expressed active interest in presenting wide range of topics. Students' interest in research has recently grown noticeably. Students have noticed that the programme offered has improved their confidence and ability to deliver good presentations. More number of students are considering a career in research.
