Scheme of Examination

End-Semester Examination:	70 marks
Internal Assessment:	30 marks (Test/s: 20 marks; Seminar: 5 marks; Project: 5 marks)
Total:	100 marks

Question Paper Pattern for End-Semester Examination

- a. 40 Multiple-Choice Questions x 1 mark = 40 marks
 - b. 15 Multiple-Choice Questions x 2 marks = 30 marks
- Total = 70 marks**
-

Eligibility for Teaching

The Paper shall be taught by a qualified Post-Graduate teacher from the Arts/Social Sciences/Humanities faculty, preferably from the Department of Sociology. If the Sociology teachers are available in the College, it shall be taught by them. If the Sociology teachers are not available, other faculty from the Arts/Social Sciences/Humanities can teach the Paper.

BANGALORE UNIVERSITY

CREATIVITY AND INNOVATION

**B.Com/BBA/BHM/5 years Integrated Course in Commerce for VI Semester under
Mrudukousalya.**

Max Marks: 100

Max time: 42 hrs.

Objectives

1. To give an insight into creativity and innovation
2. To develop an appreciation for them among students, and
3. To enhance sensitivity to creativity and innovation

Module 1: Overview of Creativity

10 Hours

Meaning and concept of creativity - Creativity Process- Nature and characteristics of creativity – Factors affecting creativity – understanding creativity from studying the profiles of most creative personalities.

Module 2: innovation Management

20 Hours

Meaning and Importance – Difference with Creativity, Invention and Discovery – Process – Typology – Case Studies on Innovation business ideas like Red bus, Flip fart, Ola, Big Basket, methods and techniques – organizational Aspects – Economic Aspects like venture capital, angel investors – Evaluation of Effectiveness of Innovation – Legal Aspects like IPR, patent etc.

Pedagogy

The pedagogy needs to explore the following

- Videos on You tube
- Case studies
- Interaction with creative persons and Innovators
- Demonstration by students.

Module 3: Creativity and various Forms of Arts

12 Hours

Understanding the forms and characteristics of Various Painting Traditions (cave paintings, Ajanta murals, Indian miniatures, Traditional & Folk Arts), Sculpture (Indian sculpture & Temple architecture), contemporary Art forms – Art & Architecture (Photography, Films, Graphic Animation and Digital Art), Performing Arts (Music, Dance and Theatre), and Poetry & Literature with examples.

3.5 BUSINESS ETHICS

OBJECTIVE

The objective is to provide basic knowledge of business ethics and values and its relevance in modern context.

Unit 1: BUSINESS ETHICS 12 Hrs

Introduction – Meaning - Scope – Types of Ethics – Characteristics – Factors influencing Business Ethics – Importance of Business Ethics - Arguments for and against business ethics- Basics of business ethics - Corporate Social Responsibility – Issues of Management – Crisis Management

Unit 2: PERSONAL ETHICS 12 Hrs

Introduction – Meaning – Emotional Honesty – Virtue of humility – Promote happiness – karma yoga – proactive – flexibility and purity of mind.

Unit 3: ETHICS IN MANAGEMENT 12 Hrs

Introduction – Ethics in HRM – Marketing Ethics – Ethical aspects of Financial Management – Technology Ethics and Professional ethics.

Unit 4: ROLE OF CORPORATE CULTURE IN BUSINESS 12 Hrs

Meaning – Functions – Impact of corporate culture – cross cultural issues in ethics

Unit 5: CORPORATE GOVERNANCE 12 Hrs

Meaning, scope, composition of BODs, Cadbury Committee, various committees, reports on corporate governance, scope of Corporate Governance, Benefits and Limitations of Corporate Governance with living examples.

SKILL DEVELOPMENT

- State the arguments for and against business ethics
- Make a list of unethical aspects of finance in any organization
- List out ethical problems faced by managers
- List out issues involved in Corporate Governance.
- List out unethical aspects of Advertising

BANGALORE UNIVERSITY

THREE YEAR UNDERGRADUATE PROGRAMME

(Courses effective from Academic Year 2014-15)

SYLLABUS OF COURSES TO BE OFFERED

Foundation Course: **Environment and Public Health**

Overview

The physical environment in which people live is an important determinant of health. At certain levels of exposure, contaminants in our air, water, food and soil can cause a variety of adverse health effects. Environmental health is a component of the public health system and is committed to protecting the health of the public and enhancing quality of life by assessing, correcting, controlling, and preventing those factors in the environment that can adversely affect human health. The prevention of injury, disease and death that may result from interactions of people with their environment is the goal of the environmental health program. Responsible citizens owe it to our government to keep the environment pristine as much as possible. Our per capita energy consumption also has to match the energy demands for sustainable development. The curriculum aims at providing solutions to some of the grand challenges facing the nation.

Objectives and Expected outcome

- Awareness of public health hazards posed by our environment, including physical features such as global warming, chemical features such as automobile emissions, contaminants in drinking water, and biological features such as putrefying organic matter.
- Impact of governmental policies and urbanization on degradation of the environment.
- Education, public- private partnership, corporate social responsibility (CSR) and change in management as way forward towards improving the Public Health thresholds.
- Educating the students on environmental policies with respect to water, air, forest and wildlife of the country.

Every Semester, teaching will be spread over 16 weeks including two weeks for review.

BANGALORE UNIVERSITY
FOUNDATION COURSE CBSS SYLLABUS FOR ALL UNDER GRADUATE
PROGRAMME

EPH: ENVIRONMENT AND PUBLIC HEALTH

General Course: UG

Course Structure: CBSS

Course: Foundation Course

Code Course Title: EPH : **Environment and Public health**

Scheme of Examination and Credits
Foundation Course (I.II.III and IV Sem)

Paper No	Title of the paper	Type of paper	Hour/ week	Duration of exam in hrs	Exam Marks	IA Marks	Total Marks	Credits
EPH	Environment and Public health	T	3	3	70	30	100	1
	Total marks and credits for I Sem						100	1

Scheme of Internal Assessment

Marks assigned	30
Tests	10
Assignments/Field work	15
Attendance	05

The internal assessment marks shall be based on tests, assignments/field work and attendance

CBSS SYLLABUS FOR ENVIRONMENT AND PUBLIC HEALTH

1 Credits/Week= 3hrs/Week, 40hrs/semester

70 Marks

Unit I - Linkages between Environment and Health

Hours

Understanding linkages between Environment and Public Health: Effect of quality of air, water and soil on health. Perspective on Individual health: Nutritional, socio-cultural and developmental aspects, Dietary diversity for good health; Human developmental indices for public health.

06

Unit II - Climate Change and Implications on Public Health

Global warming - Agricultural practices (chemical agriculture) and Industrial technologies (use of non-biodegradable materials like plastics, aerosols, refrigerants, pesticides); Manifestations of Climate change on Public Health- Burning of Fossil fuels , automobile emissions and Acid rain.

08

Unit III – Diseases in Contemporary Society

Definition- need for good health- factors affecting health. Types of diseases - deficiency, infection, pollution diseases- allergies , respiratory, cardiovascular, and cancer Personal hygiene- food - balanced diet. Food habits and cleanliness, food adulterants, avoiding smoking, drugs and alcohol.

Communicable diseases: Mode of transmission -epidemic and endemic diseases. Management of hygiene in public places - Railway stations, Bus stands and other public places. Infectious diseases: Role of sanitation and poverty case studies on TB, diarrhea, malaria, viral diseases .Non-communicable diseases: Role of Lifestyle and built environment. Diabetes and Hypertension.

10

Unit IV - Perspectives and Interventions in Public Health

Epidemiological perspectives — Disease burden and surveillance; Alternative systems of medicine - Ayurveda, Yoga, Unani, Siddha and Homeopathy (AYUSH); Universal Immunization Programme (UIP); Reproductive health-Youth Unite for Victory on AIDS (YUVA) programme of Government of India. Occupational health hazards-physical-chemical and biological. Occupational diseases- prevention and control.

08

Unit V - Environmental Management Policies and Practices

Municipal solid waste management: Definition, sources, characterization collection and transportation and disposal methods. Solid waste management system in urban and rural areas. Municipal Solid waste rules.

Policies and practices with respect to Environmental Protection Act, Forest Conservation Act, Wild life protection Act, Water and Air Act, Industrial, Biomedical and E waste disposal rules.

08

Assignment /Field Work

- Examining local cuisines for dietary diversity.
- Examining National Health Survey data e.g. National Family Health Survey, Annual Health surveys.
- Survey of Immunization coverage in a particular area.
- To establish if there is a relation between GDP and life expectancies/Health parameters.
- Survey of Respiratory allergies.
- Examining household/institutional/market/neighborhood wastes and their disposal mechanism.
- Survey of households along the Arkavathi and Cauvery River for life expectancy and common ailments and diseases.
- Determine the extent of use of paper and suggest means of reducing the use of paper and paper products.
- Documentation of festival/fasting and mapping of agro-ecological cycles.
- Definitions of poverty - Governmental policies on poverty mitigation - facts and fiction.
- Health indicators vis- a-vis income groups.
- Deforestation and flooding - myth or fact?
- Smoking and Lung Cancer
- Estimation of water-demands of a city/town.
- Adapting water-harvesting technology - survey, sustainability.

- Quantitative relation between bio-resource and consumer products - bathing soap, paper, furniture & construction as related to trees.
- Differential access to water - demand and actual access.
- Transport losses in water supply.
- Storage losses in food grain.
- Study of sewage treatment plants.
- Social perspective - child-health and small scale industries.
- Document infant immunization.
- Studying effective programme implementation - Reproductive health.
- Opportunities of physical activities in neighborhood - Study of built environment - Land-use pattern in Urban Settlements.
- Air quality in Delhi.
- Changing transport means in Delhi - CNG.
- Rituals and environmental pollution e.g. water, noise, air.
- Dialogue with doctors and paramedics.
- Methods of consultation of doctors.
- Population pressure/growth and resource degradation.
- Nutritional disorders/deficiencies in different populations groups-surveys.
- Compose and enact street plays. Create posters/ audio-video materials/ greeting cards highlighting environmental issues.
- Collecting information on medicinal plants.
- Collecting information from elders and other prominent persons.
- Occupational hazards and health issues.
- Water-borne diseases - exacerbation by irrigation projects.
- Alternate medicines - use of therapies for different diseases categories.
- Lifestyle diseases.
- Pollutants in air/water/soil and their effect on health.
- FDI in specific manufacturing Industries and local health problems.
- Differential pricing policy of petroleum products and environmental pollution - case studies.
- Wildlife Protection Act - case studies.
- Bhopal Gas Tragedy- Science, Laws and Public Health
- Changing Human Development Indices over time – in India/other countries.
- Supply, demand and gap filling –role of ground water

Personality Development

Introduction:

Personality Development is a development of the organized pattern of behaviours and attitudes that make a person distinctive. It is concerned with the views of others and how they realize you and what they see in you .It occurs by on -going interaction of temperament, character and environment.Erik Erikson provided an insight full description as to how personality develops based on his extensive experience. He has identified eight phases of the socialisation process of an individual. Five of them occur during infancy, childhood and adolescence. Personality Development is different from self-development which is generally perceived as same. They are related to each other.

But eastern philosophy in general and Indian spirituality in particular understands personality from a different context. Swami Vivekananda says, "Personality Development in the real sense refers to deeper level of a person".Hence, he opines that a study of personality should start from a clear grasp of nature of our mind, and how it functions. Mind has four fold functions likemanas, buddhi, chitta and ahamkara.He has identified four essential qualities for personality development. They are faith in oneself, think positive thoughts, attitude towards failures and mistakes, self-reliance& renunciation and service.

Unit:1 18 HRS

Self-Awareness: Meaning of self-awareness-Components –Improving self-awareness- Benefits of Understanding self

Goal setting: Meaning of goal and goal setting – Short, medium and long term goals-Importance of goal setting- Choices/selection of setting goals-Steps for goal setting –SMART goals.

Creativity: Meaning of Creativity - Difference with Innovation-Barriers to creativity-Steps to stimulate creativity-Understanding and importance of human values-Difference with ethics, Ideals in life – Becoming a role model

Unit 11 12 HRS

Interpersonal Skills—Meaning of Interpersonal skills- Need to develop Interpersonal skills- Components of Interpersonal skills- Techniques required to improve skills- Benefits of effective interpersonal skills

Stress Management: Meaning of stress- Factors causing stress- Positive and negative types of stress- Effects of stress on body and mind-Stress removal techniques.

Unit 12 12 HRS

Time Management: What and why of Time Management – Necessity and benefits of time management – Tools of time management-How to manage time wisely

Leadership Development: Meaning and Importance-Types of leadership styles-Theories of leadership

Pedagogy:

1. Activities exercises and assignments have to be given not less than 40% weightage
2. Appropriate Case studies could be used
3. You tube videos to be used effectively

BANGALORE UNIVERSITY

Soft Skills ('Mrudu Kousalya') Paper

3rd Semester B.A./B.Com./B.B.M./B.H.M. from 2015-16

SCIENCE AND SOCIETY

2 Credits

Max. Marks: 100

Hours of Teaching: 39-42

Objectives

We inhabit a world today that is shaped significantly by Science and Technology(S&T). S&T has enriched our lives and proved to be beneficial in our livelihoods. At the same time, many of the products of S&T pose challenges, and in ways, even threaten the existence of societies. This course, meant for students of the humanities/commerce streams, is to provide an overview of the nature of S&T and its interaction with society. It is meant to provide a broad introduction to the most significant discoveries and inventions of modern science that have changed our lives and to bring into focus the need for developing a critical appraisal of the issues related to the connection of S&T with society.

Notes to the Instructor(s)

1. All the units under this syllabus may be taught by any qualified science Post-Graduate teacher. However, the units may be taught in collaboration with the concerned faculty.
2. **Unit I (A):** A brief introduction to science and the practice of the scientific method as it has come to be understood in the 20th century, with a historical outline that provides a flavor of the developments that led to modern science and the contributions of different civilizations in this direction.
- Unit I (B):** A discussion on how the discoveries of science transform to technologies and also how technologies have enabled to ask new scientific questions with suitable examples.
3. **Unit II:** This unit explores through specific examples, the discoveries in science that have profoundly impacted civilizations. It is to provide some basic information and introduce some of the consequences of the products of these discoveries on the safety of humans.
4. **Unit III:** This unit is to explore the impact of S&T on socio-economic sphere and the lives of individuals. It will also delve into environmental issues concerned with the deployment of technologies on a large scale.

Unit I: Introduction to Science:

(13 Hours)

A. What is Science & History of Science

(4 hrs.)

- *What is Science? The revolutions in Physics - Contributions of Copernicus and Galileo; A brief history of the Renaissance in Europe; Age of Enlightenment; Industrial Revolution; Science in the 20th century.*

- *Modern Science and the Scientific Method* (2 hrs.)
A discussion on hypothesis, experimentation, criteria for experimentation, theorizing, and the open-ended nature of the scientific quest
 - *Science in other Cultures* (2 hrs.)
A brief exploration of science and technology in pre-modern era with emphasis on India in areas of Mathematics, Metallurgical Sciences, Medicine and Health
- B. The interdependence of Science and Technology
- *Molecular basis of disease and vaccination* (1hr.)
 - *Laser and photonics applications* (1 hr.)
 - *Microscopy and applications* (1 hr.)
- C. Science and the Public (2 hrs.)
- *Discussion on the need for an informed public in a democracy about S&T, Science policy and research funding, S&T and development*

Unit II: Modern Science and its impact on Societies: (13 Hours)

- *Theory of Evolution: A lecture summarizing the modern theory of evolution of species and its implications* (1 hr.)
- *Discovery of Antibiotics: What is an antibiotic and how does it work? A brief history of the discovery of antibiotics and its impact on health. Adversities due to misuse of antibiotics* (2 hrs.)
- *Soaps, Detergents, Polymers and Chemicals: Their use and abuse* (2 hrs.)
- *Atomic Energy : Introduction to fission and fusion reactions, atomic reactors and power plants; nuclear weapons; Chernobyl accident* (2 hrs.)
- *Space Sciences: History of space exploration; Sputnik and US space programme; Modern satellites, Applications in weather prediction and analysis; remote sensing with reference to Indian space programme.* (2 hrs.)
- *Genetics and human health: Introduction to gene, DNA and basis of heredity; some issues of health linked to genetics* (2 hrs.)
- *Nanotechnology, Smart materials: Introduction to nanotechnology and examples of some devices that use nanotechnology. A brief survey of smart materials* (2 hrs.)

Unit III: Science, Life and Livelihoods: (13 Hours)

- *India's agricultural productivity and dairy development: The Green and White Revolutions; The Gene Revolution and GM Crops* (3 hrs.)
- *Information Revolution: The impact of internet and web-based technologies* (2 hrs.)
- *Impact of high-tech devices on emotional, social and cognitive facets of humans* (2 hrs.)
- *Energy issues and renewable energy sources: solar, wind, bio-fuels* (3 hrs.)
- *Climate Change* (3 hrs.)
