Report On Visit to Bio-park

The Department of Environmental Science of Bangalore University was established in 1992 to mainstream the scientific methods and technologies related to Environmental Science in the main curricula of the University. Incidentally the year 1992 was the Year of the UN Conference known as the Rio Summit and Agenda 21 for Environmental Protection and Conservation.

Primary mission of the Department of Environmental Sciences is to impart environmental knowledge to students and develop research and evaluation programmes. Towards this end, the laboratory of the department has been provided with infrastructure facilities to meet the requirement of water, air, soil and biological sample analysis. The Environmental Science laboratory of Bangalore University is recognized under EPA (Environmental Protection Act), 1986 way back in 2002. Following this, the department is getting samples from various public and private undertakings, Govt. agencies, etc. Standards protocols for the analysis of the samples have been developed.

Our 3rd Semester BBA Students were exposed to a host of fields during this visit such as Environmental Biology, Environmental Chemistry, Environmental Pollution, Biostatistics, Waste Management, Remote Sensing and its applications, Natural Resource Management and Biodiversity, Disaster Management, Environmental Energy, and Conservation **at Bio-Park (Chakravana)** and Environmental Museum of Minerals & Rocks. This has enabled them to briefly understand the environmental concepts. This visit was part of their curriculum “Science and Society”.
