Dr. Harish G Ugraiah, an Engineering and MBA graduate from Bangalore University, and a Ph.D from PES Institute of Technology under Visveswaraya Technological University (VTU)-Belgaum.

He started his career in industries as Design & Production Engineer, Business Development Manager, and also as consultant. He has taught thousands of students _Engineering, MBA and BBA since 1997. He has served several educational institutions of repute like BMS College of Engineering, RNS Institute of Technology, PES Institute of Technology, PES University etc., to name a few.

Along with regular teaching assignments, he also has contributed to the institutes in the capacity of Placement Officer, Head of the Department, Vice Principal, Principal, Deputy Controller of Examinations, MSME Business Incubation coordinator, Promotion and Branding Coordinator, etc..., Presently he is the Controller of Examinations at Surana College Autonomous.

The skill-based question paper pattern in VTU MBA examinations is one of his initiatives, which was well appreciated across academics. He commercialized a few of students' projects/Business ideas that are successful in the market at present.

He was also a consultant for many Software development and other business companies during the software peak periods. He along with his seniors had set-up a Multinational Business Strategy Consulting Company headquartered at Perth, Australia and headed all its India operations. He has also trained hundreds of CAT aspirants.

His areas of interest include Corporate Culture, employee productivity, CSR, Outplacement, etc...,

He has published research papers in International Journals of repute and has attended many National and International Workshops/Seminars. A patent application/publication filed by him and his Engineering team-mates together, is in the process of consideration.

He has won a national Award, "**Bharat Vikas Award**" instituted by Institute of Self Reliance, Bhubaneswar in the year 2019 for his social contributions.

He is also on the panel of interview at ISRO, Bangalore, for the promotion of their Scientists grade -D to Grade-E.
